Neil Yarborough, County Attorney  
Marsha Fogle, Clerk

1. Approval of Minutes: October 5, 1995

A motion was made by Commissioner Shaw, seconded by Commissioner Faircloth and unanimously adopted to approve the Minutes.

2. Consideration of Schematic Plans for the North Regional Branch Library

Mr. Jerry Thrasher and the architect for the project reviewed the schematic design and shared a copy of the site concept plan. (attached)

The north regional branch library will be 24,000 square feet in size. Parking will be provided for 200 patrons.

The library site concept plan shows the library will be placed towards the front of the lot with parking provided in the back of the lot. A water retention pool will be placed at the back end of the lot behind the parking lot.

Commissioner Shaw expressed concern about security in the parking lot after the library closes. It was suggested that perhaps a gate or some security device be placed at the entrances to the parking lot to prohibit people from parking there when the library is closed.

The plans will go to the Board of Commissioners for approval at the January 2, 1996 commissioners' meeting.

3. Update - Other projects

- A. Jail - Programming is under way and should be completed in February. A couple of possible sites have been identified. Site location needs to be determined in order to proceed with design of the jail.

Commissioner Faircloth said he had heard a portion of a radio program on WFNC in which Judge Dempster had stated what the empty space in the law enforcement center would be used for once a new jail was built and the city moved from the building. Mr. Faircloth asked if the Board of Commissioners had made a final decision about the empty space. At this point no final decision has been made and Mr. Strassenburg was instructed to check into the information relayed via radio to the public.
