The meeting was called to order by Chairman Keefe.

Mr. Keefe discussed the fact that there is no "policy" manual where one can go and find all policies that are in place in Cumberland County. He suggested a Policy Notebook in which all policies are listed. It was pointed out that there are policies adopted by the Board of Commissioners and administrative policies set forth by the County Manager in order to implement a directive of the Board of Commissioners.

The Committee discussed their mission. It was suggested the mission is to look at issues forwarded to the committee by the Board of Commissioners and Staff and make recommendations as appropriate.

The Committee decided to meet on call, rather than establish a regular meeting date. This is effective March 8, 1995.
