Env. Hlth Approval # _____

Compliance with NC State Residential Code, Appendix G (provided)

Indicate your method of compliance with the barrier requirements (Section AG105, NCRC)

The pool will be isolated from access from the dwelling & yard, or adjoining property, by an enclosure meeting the barrier requirements as identified in AG105.2(1-8)

Part of the barrier will consist of the wall of the dwelling. The pool will be isolated from the yard by a barrier meeting the requirements of AG105.2(1-8). The wall will meet one of the following barrier requirements as identified by AG105.2(9).

Pool powered safety cover in compliance with ASTM F1346

Doors with direct access to the pool will be equipped with alarms as required in AG105.2(9.2)

Note: Entrapment protection for swimming pool and spa suction outlets must comply with ANSI/APSP-7.

***Additional Requirements**

1. A separate electric permit is required for all electrical work and bonding.
2. Regardless of who performs the work, all Barriers and Entrapment Protections must be completed and approved as part of the Final Inspection. A **Bldg. Final Inspection** is required to approve the pool, hot tub or spa for use.

I hereby certify that I have read and examined this document and know the same to be true & correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not. Granting a permit does not presume to give authority to violate or cancel the provisions of any state or local law regulating construction or the performance of construction. **By my signature I am indicating that I have received a copy of Appendix G of the NC State Residential Code (NCRC) with this application.**
