## **Courthouse Plaza Concrete to be Replaced Starting Monday**

**FAYETTEVILLE** — Demolition and replacement of a portion of the Courthouse Plaza concrete will begin Monday, Oct. 12. The project is expected to take about three weeks.

Demolition will be done between 6 p.m. and 4 a.m. to minimize disruption to Courthouse operations and will last about one week.

Once the demolition is completed, the contractor, Cardinal Landscaping, will work during the day pouring new concrete in two or three phases. Construction fencing will be erected and signs installed to direct foot traffic around the work.

Access to the main entrance off of Dick Street will be maintained throughout the project. The Person Street entrance, which has been closed for repairs, will open on Monday.

The plaza was completed in July; however, deficiencies in the concrete finish were found, resulting in the need to replace the concrete work.
