Health Department Now Out of H1N1 Vaccine

FAYETTEVILLE – The Cumberland County Public Health Department, 227 Fountainhead Lane, is currently out of the H1N1 vaccine – both the flu mist and shot forms.

The only Seasonal Flu shots available are for school-age children from 4 to 18 years of age.

The department will send out a notice when vaccine shipments arrive. It recommends that individuals call the Immunization Clinic at 433-3657 to check on the availability of the vaccine and on the hours for vaccination clinics. Hours may change daily because of the demand for the vaccine and the arrival of shipments.

For more information, call the Immunization Clinic at 433-3657.

Check with your medical provider to see if you should receive the H1N1 vaccine. For more information, go to www.flu.gov.
