Public Workshops Set for Bicycle and Pedestrian Connectivity Study

The Fayetteville Area Metropolitan Planning Organization (FAMPO), with the help of Stewart Engineering, recently began a study that will help guide the growth of our community's walking and bicycling facilities. They are seeking public input during workshops and through an online survey.

At the following five public workshops, planners will ask area citizens to identify the most needed facilities and projects for walkers and bikers.

- Wednesday, April 28, 4 p.m. to 7 p.m. - Stedman Recreation Center, 175 Circle Dr., Stedman
- Thursday, April 29, 4 p.m. to 7 p.m. – Smith Recreation Center, 1520 Slater Ave., Fayetteville
- Monday, May 3, 4 p.m. to 7 p.m. – Spring Lake Community Center, 245 Ruth St., Spring Lake
- Wednesday, May 5, 4 p.m. to 7 p.m. – Hope Mills Recreation Center, 5766 Rockfish Rd., Hope Mills
- Thursday, May 6, 4:30 p.m. to 7 p.m. – Methodist University Alumni Dining Room at Berns Student Center

Individuals who are unable to attend the workshop are asked to complete an online survey posted on the FAMPO Web site – www.surveymonkey.com/s/FAMPO.
