Health Department Seeks Public Input for Health Needs Assessment

FAYETTEVILLE, NC – The Cumberland County Department of Public Health and Cape Fear Valley Health System are collaborating with several other community agencies and organizations to complete the 2013 Community Health Needs Assessment.

The purpose of the survey is to gather information about the health and well-being of Cumberland County and to identify needs, concerns and health problems based upon community opinion. A community health needs assessment report and action plans will be developed based on the survey data and additional information pulled from state databases.

Citizens are asked to take a few minutes to complete the online survey by Feb. 25. To access the survey, go to https://www.surveymonkey.com/s/Cumberland_County_Community_Health_Assessment_2013. A link is also posted on the Health Department's webpage at www.co.cumberland.nc.us/health.

If you have questions about the survey, contact Barbara Carraway at bcarraway@co.cumberland.nc.us or 910-433-3893.

Hard copies of the survey are available in English and Spanish. Please contact Carraway or Shea Poteet at spoteet@capefearvalley.com to request copies.

For additional information about the Cumberland County Department of Public Health, please call 910-433-3600 or visit with someone at the information desk. Comments are welcome and can be submitted on our website at www.co.cumberland.nc.us/health/comment_form.aspx. The Health Department is located at 1235 Ramsey St. in Fayetteville.
