*Date:* Aug. 20, 2014

**FOR IMMEDIATE RELEASE**

Is your landscape prepared for cooler weather? Do you know what to do?

If not, bring your lunch and join the Cumberland County Cooperative Extension Horticulture staff as they share what to prune, what to plant and how to prepare your landscape for colder weather from houseplants, to trees, to turf.

Theresa Williams and Kenny Bailey, Extension Horticulture agents, will share information on all these topics during the Landscape and Garden Checklist for Fall workshop to be held on Wednesday, Sept. 17, from 12:30 p.m. - 2 p.m. The workshop will be held in Cumberland County Cooperative Extension Auditorium located at 301 East Mountain Drive, Fayetteville.

The workshop is free; however, registration is requested. You may register by calling Susan Johnson at 910-321-6405, or Theresa Williams at 910-321-6870.

For accommodations for persons with disabilities, contact Theresa Williams at 910-321-6870 no later than five business days before the event.
