County 4-H Youth Visit State Museum's Soil Exhibit

FAYETTEVILLE – Thirteen members of the Cumberland County 4-H Youth Development program attended the “Dig It: The Secrets of Soil” special exhibition at the North Carolina Museum of Natural Sciences in Raleigh in July.

Soil and Water Conservation District Administrative Program Officer Donna Foster and Cooperative Extension 4-H agent Jessica Drake accompanied the 4-H members to the museum. The exhibit, which was on display from May 16 through Aug. 16, included samples of different soil types in North Carolina, underground life, hands-on models and 54 soil monoliths representing each U.S. state, territory and Washington D.C. Cumberland County Soil and Water was one of the donors, which made the exhibit possible.

To learn more about 4-H opportunities, go to cumberland.ces.ncsu.edu and click on the 4-H tab or call 910-321-6867. The 4-H and Soil and Water Conservation District offices are located in the Cumberland County Agriculture Center is at 301 E. Mountain Dr., Fayetteville. For more information about the Soil and Water District Office, call 910-484-8479 or go to co.cumberland.nc.us/soil_water/.

Cumberland County 4-H members who visited the “Dig It: Secrets of the Soil” exhibit at the N.C. Museum of Natural Sciences in Raleigh are Leianna Brunelle, Brayden Davis, Brian Green, Dewain Green, Fabian Horton, William Kreiling, Zander Kreiling, Kelsie Mullins, Ashia Tatem, Robert Tatem, Lila White, Savannah White and Veronica White.
