## **Rabies Vaccination Clinic Postponed; Household Hazardous Waste Facility Closed Saturday**

FAYETTEVILLE – The rabies vaccination clinic originally scheduled for Oct. 8 at the Cumberland County Department of Public Health has been postponed due to weather concerns. The rabies clinic will be re-scheduled for mid-November, at a date to be determined later.

“We are concerned for the health and wellbeing of our residents and their pets and do not want them to put themselves or their pets in harm’s way in possible severe weather,” Environmental Health Director Daniel Ortiz said.

### **Household Hazardous Waste Facility Closed Saturday**

The Household Hazardous Waste Facility at 923 Wilkes Rd. will be closed Saturday, Oct. 8, because of weather conditions. The site, which is open the second and fourth Saturdays of each month, will open as normal on Oct. 22 at 8 a.m.
